

OFFICER FINANCE & CONTROLLING

The Officer Finance & Controlling is responsible for the active follow-up, the management and proactive feeding of the financial reporting and budgeting system by gathering the necessary and needed data, the introduction of the data into the system, the processing of the data, the calculation of the resulting reporting and the continuous improvement of the financial reporting methodology and systems that exists within OCAS. He/she will also be assigned to various ad-hoc and/or long term assignments within the scope of finance & controlling.

YOUR RESPONSIBILITIES:

- You will be involved in the R&D project accounting. You follow the cost of the different R&D projects and report the resource consumption compared to the budget
- You coordinate the annual budgeting cycle and assist the different departments in this process.
- You run the accounts receivable process: you calculate and generate the invoices, and carry out ex post profitability analyses.
- You monitor the financial flows between OCAS and its spinoff or joint venture companies.
- You work in close collaboration with the OCAS accountant, and you keep yourself the accounts of a joint venture company.
- You play an active role in the optimization of the financial systems and processes.
- You carry out ad hoc projects.
- You report to the Head of Finance and Controlling.

YOUR QUALIFICATIONS:

- You have a bachelor degree in accounting or economics (or equivalent through experience) with a strong financial focus
- Ideally, you have experience in the field of general accounting (e.g. you have some years of experience as a general ledger accountant in a company) and are looking for additional challenges in reporting and controlling.
- You have strong IT skills and an excellent command of MS Excel; (SAP experience is surely an asset).
- You have a mature personality and you are discreet.
- You show a responsible attitude, you are flexible, pro-active and stress-resistant.
- You are meticulous in your work.
- You are a team-player and you have good communication skills.

LANGUAGES:

- Dutch & English: fluent (speaking, writing)
